Summary

Aspiring Software Developer eager to leverage my skills to create a meaningful impact within an IT organization. Completed a 6-month internship in Java Full Stack Development and currently working as a NetSuite Technical Intern. Proficient in Java, Spring Boot, Spring, Hibernate, MySQL, and frontend technologies such as HTML, CSS, JavaScript, Tailwind CSS, and Bootstrap. Developed secure web applications, including Smart Contact Manager and File Sharing App using OAuth and Spring Security. Solved 700+ DSA problems on LeetCode, GeeksforGeeks and Codeforces with proficiency in Git/GitHub and a focus on writing clean, maintainable code and effective team collaboration.

Experience

NetSuite Technical Intern Feb 2026 – ongoing
C3 India Delivery Centre LLP (formerly known as Crowe Horwath IT Services LLP)

- Configured and customized NetSuite modules using SuiteScript, SuiteFlow, and SuiteBuilder to support business processes across finance.
- Developed and maintained SuiteScripts and RESTlet integrations to automate workflows and enable seamless data exchange with systems.
- Assisted in requirement analysis, testing, and deployment, collaborating with consultants and developers to deliver NetSuite solutions.

Java Full Stack Development Intern LINK Dec 2023 – July 2024
Appwars Technologies Pvt. Ltd.

- Designed and developed a production ready full stack web application, Smart Contact Manager, handling end to end backend development using Java, Spring Boot, REST APIs, JPA, and MySQL.
- Gained new skills in implementing Google OAuth, integrating third-party services like Cloudinary, and deploying backend services.
- Collaborated using Git and GitHub, gaining hands-on experience in backend deployment, debugging, and application development.

Education

GL Bajaj Institute of Technology and Management, Greater Noida
Master of Computer Applications (Current 81.6%) 2024 - 2026

IIMT College of Management, Greater Noida
Bachelor of Computer Applications (Secured 74.4%) 2021 - 2024

Skills

Frontend Development : HTML5, CSS3, JavaScript, Tailwind CSS, Bootstrap, Thymeleaf
Backend Development : Java, Python, Spring, Spring Boot, Spring MVC, Hibernate, JPA, JDBC, Microservices, J2EE, REST APIs, Numpy
Database Management Systems: SQL, MySQL
Soft Skills : Quick Learner, Adaptable, Creative, Problem-Solver, Collaborator

Certifications

- Certification in Java Full Stack Web Development from Appwars Technologies Pvt. Ltd.
- Certification in Cybersecurity Basics from Cisco Networking Academy.
- Certification in CCNA1, CCNA2, CCNA3 from Cisco Networking Academy.

Projects

Smart Contact Manager LINK

- Developed a full-stack Smart Contact Manager supporting user authentication, contact operations, and dynamic search functionality.
- Implemented Google OAuth for secure sign-in and integrated Cloudinary for image management, enhancing usability with cloud features.
- Utilized Spring, Spring Boot, JPA, MySQL, Spring Security, and Thymeleaf to deliver a scalable and maintainable solution.

File Sharing App LINK

- Created a secure file-sharing platform with user authentication, file upload/download, and 24-hour auto-deletion to ensure data privacy.
- Implemented time-based file expiration logic and OAuth integration, optimizing storage while improving security.
- Built using Spring Boot, Spring Security, Hibernate, MySQL, Thymeleaf, HTML, CSS, and JavaScript for a robust and responsive solution.

Achievements

Hackathon Winner - Won the Hackathon as part of the All Beginners Winning Team at DevGathering 2K25, held at MIET. LINK
Website Design Competition - Secured 2nd Prize in the Web Wizard competition at Fusion Fest, organized by GL Bajaj. LINK
Hackathon Finalist - Hackathon Finalist at Hack Vriksh, held at Dronacharya Group of Institutions. LINK
DSA – Solved over 700 problems on Codeforces, GeekforGeeks and Leetcode with a contest rating of 1508.
